

February 9 – 15, 2025

“THE BIGGEST SKIING IN AMERICA”

Stay 6 nights at the newly renovated iconic Huntley Lodge, slope-side to Mountain Village. Big Sky Resort is an impressive resort with an elevation of 11,166 feet at the top of Lone Mountain and 5,850 acres of downhill skiing across Spanish Peaks and Moonlight Basin. You can find powder stashes regularly throughout Big Sky due to the most consistent snowfall in the Northern American Rockies, averaging over 400 inches annually. There are more snow-covered acres than skiers, with about two acres per skier even on the busiest day, which means a safer mountain experience. The resort has been lauded for its incredible vertical drop and also the very minimal wait times due to its advanced lift system. Experience the new (2023), 75-person capacity Lone Peak Tram, taking you from the base to the summit in under 5 minutes!
